

DXT *Mouse*

DXT Ergonomic Mouse Study Results

Qualitative

A comprehensive study of intensive office based computer users had the following results when they compared the DXT with a standard mouse and an Evoluent vertical mouse:

Accuracy

83% of participants working with CAD/REVIT/Excel reported increased accuracy and precision when using the DXT mouse.

Comfort

83% of participants chose the DXT for overall comfort.

Quantitative

DXT Mouse vs Evoluent Vertical Mouse

Statistically significant that:

DXT Mouse is more productive than Evoluent Vertical Mouse in terms of accuracy and precision.

DXT vs Standard Mouse

Statistically significant that:

DXT Mouse is more productive than a standard mouse in terms of accuracy and precision.

Benefits

- Ergonomic relaxed wrist and hand position
- Accurate and Productive
- Right or left hand
- Fits most hand sizes
- Compact Ergonomic design
- Limited Grip Force (A very limited pinch form of grip of 2.5 Newtons ONLY during drag & drop activities. This compares to the 10 Newton action limit force described by the American Conference of Industrial Hygienists)
